Dear Mr Weisberg;

Am enclosing a memo on Guy Bannister and a photo, copied from one given to the DeGidio family by Bannister. I don't really think there is much the DeGidio's could tell me # that is of any real importance. (although the "Isle Of Pines" mention did interest me)

I do expect to obtain photocopies of letters, envelopes, and a few other photos of Bannister. I will send them as soon as it is done.

Mrs DeGidio is a nice lady and very helpful but somewhat disorganized. I have not talked to her husband as I suspect that he might be unwilling. (she agrees)

I also have some info of perhaps more interest regarding Joseph Milteer from a man in Quitman Georgia. Dan Christenson of "Miami" magazine has covered some of the info from the same source but I think he has not really gone into it very deeply. If you care for it I will send it also. That would be mostly in the form of tape transcript, and it is not complete yet.

I attempted to interview John Thomas Masen while I was in Dallas earlier this year, (without much success)... He did bear a remarkable resemblance to Oswald. I showed him CD 853 p.3. He seemed quite alarmed and refused to speak with me beyond that point. He was polite and indicated that his unwillingness to be interviewed stemmed from fear. (a particularly sensitive point with him seemed to have been my interest in George Parrell)

In our phone conversation you mentioned some brain damage that Bannister suffered while in Chicago. If you are able to find the time at some point I would hope to learn more about that, or any documents recently released that pertain to Bannister, Ferrie, etc.

That's about all... I think I will be in Dallas in mid November. If there is anything of interest to you there that I might be able to cover, let me know, and I will try to get to it while I am there.

Sincerely

Wendell Krueth
